Maths and Physics student with above average grades.

Cape Peninsula University of Technology, Cape Town, SA — *Information and Communications Technology (Software Development)*

FEBRUARY 2020 - PRESENT

Studiying Software development with languages like Java, JavaScript, PHP and other various software development languages.

PROJECTS

Portfolio-Project — *A personal Portfolio Project*
https://portfolio-project-6d887.web.app/

Started Learning React Js and worked on a Portfolio Project that I am still perfecting today.

Event Management Application — *A mobile application that will allow users to buy event tickets (In Progress)*
https://github.com/Elijah-Prog/MobileAppProject

This React Native application allows users to post events and allow other users to buy tickets to that event. After a user buys a ticket, they are emailed a ticket information pdf with a QR CODE on it, that will be scanned uppon entrance of an event, then deleted on the database after being scanned.
